PROJECT

MAC - Monteruscello Agro City

Pozzuoli, Italy

TOPIC

Urban poverty

EDIT 04 OCTOBER 2019
BY PIETRO ELISEI, UIA EXPERT

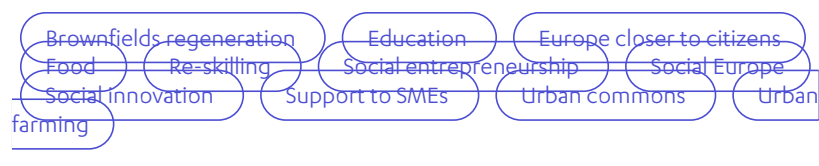

About Urban poverty and urban agriculture

See on UIA website 

The UIA Expert Pietro Elisei, in the second zoom-in for the MAC project, focuses his lens on the project process and on design pillars.

The document analyses the nexus between urban poverty and urban agriculture, highlighting the key role that physical urban regeneration interventions play in the MAC project and how this is generating an higher complexity in its implementation, also considering the peculiarity that the Monterusciello neighbourhood presents.
