PROJECT

Antwerp Circular South - engaging the community in an online and offline circular economy

Antwerp, Belgium

TOPIC

Circular economy

EDIT 22 JUNE 2020
BY MARCELLINE BONNEAU, UIA EXPERT

Antwerp Circular South Journal 4: Well into the project, but far enough?

See on UIA website

UIA Expert Marcelline Bonneau reveals that “some specific aspects are becoming more prominent now: showing the added value to both residents and owners of buildings to take part in the PVs scheme and Renewable and Citizen Energy Community; realising the over optimism of the proposal; managing the political dependence of some actions. As such, Antwerp Circular South projects itself in the future and wishes to learn and share even more about what it has done and what it has struggled with.”
