Podcast: the benefits and challenges of cargo bike and trailer sharing systems

See on UIA website

Join us in this podcast as we delve into the groundbreaking cAIRgo Bike project, an initiative transforming Brussels with cargo bikes to improve air quality and urban mobility.

Hosted by [Giacomo Lozzi](#), external expert for the Urban Innovative Actions programme, this episode explores the innovative cargo bike and trailer sharing systems of [Remorquable](#) and [Cambio](#).

What's in?

- * **Inspiring stories:** Hear from **Mathieu François** of Remorquable and **Quentin Letesson** from Cambio as they share their journeys and insights.
- * **Innovative solutions:** Learn how these services are making eco-friendly transport accessible, reducing traffic congestion, and supporting local businesses.
- * **Real challenges & strategies:** Understand the hurdles faced and the creative strategies used to overcome them.
- * **Future prospects:** Discover the exciting future plans and potential for replicating these systems in other cities.

Whether you're a mobility enthusiast, a city planner, or simply curious about how cities are evolving, this podcast offers valuable insights and inspiration. Tune in to see how these innovative sharing systems are paving the way for a greener, more efficient urban future.
