PROJECT

Urban infra revolution - Circular economy materials and novel method development to produce recyclable and functional urban construction products

📍 Lappeenranta, Finland

TOPIC

Circular economy

EDIT 11 JANUARY 2019  
BY KINGA KORNIEJENKO, UIA EXPERT

## Urban Infra Revolution UIA Expert Journal – reducing emissions in urban construction development

See on UIA website

UIA Expert, Kinga Korniejenko, gives a first look on how the project is being implemented.

It's been a year since the Urban Infra Revolution project started its implementation and many activities have been carried out. The project has begun to produce knowledge stemming from the implementation of its innovative solution.

You can now read the first of a series of journals following the project's implementation process. In this first edition, find out about the EU, national and local policy. Learn about the following elements:

- work on material solutions and basement assumptions for additive technology
- the difficulties, barriers and challenges linked to the experimental nature of the project

Get to know better what Lappeenranta is doing on the topic of circular economy in this UIA Expert journal!
