SASMob - Smart Alliance for Sustainable Mobility

Szeged, Hungary

TOPIC

Urban mobility

EDIT 20 MARCH 2019

BY ZSUZSANNA KRAVALIK, UIA EXPERT

Commuting patterns explored in SASMob's 1st zoom-in

See on UIA website

Check out the different commuting patterns within the SASMob partnership. Look at how personal choices can be geared into different mobility patterns within general mobility behaviour trends and get insights on how public mobility providers can respond to the ever growing appeal of individual mobility solutions?

The learning process has started: there is a great momentum among employer partners to commit themselves to implement the agreed mobility plans and work together with mobility providers to forge innovative solutions and create favourable conditions to sustainable mobility.
