Clarification on Call 4 Terms of Reference: UIA rules regarding State aid

This document aims at clarifying the provisions regarding State aid rules applicable to UIA projects.

The limitation of maximum EUR 500,000 is no longer relevant when drafting applications and implementing projects. The following sentence is therefore **NOT APPLICABLE** in the framework of the Terms of Reference of the 4th Call for Proposals: *“the State aid consistency should be based on a limitation of maximum EUR 500,000 of the total amount of UIA funding that can flow to an individual undertaking involved in a particular project”*.

Applicants shall however keep in mind that each project must be designed in compliance with State aid rules so as to prevent market distortions or market interference.

More detailed information on State aid are provided in section 4.5.7 of the UIA Guidance: https://www.uia-initiative.eu/sites/default/files/2018-10/UIA%20guidance_V4.pdf
