CALICO, «CAre and Living in COmmunity», is an intergenerational and socially diverse cohousing project built in interaction with its neighbourhood.

- **34 homes** spread between three cohousing clusters managed by partners CLTB, Pass-ages and Angela.D.
- A common desire to **promote togetherness** within a building built on common land.
- A facility for **birth and end-of-life** offering people the possibility to give birth or die in a deinstitutionalized, familiar environment and surrounded with close ones.
- A project globally integrating a **gender perspective**.
- An **integration of mutual care** within housing through interactions between volunteers and care professionals.
- An **open space** for local initiatives, inserting the building within its **neighbourhood** and creating a space for interaction with said neighbourhood.
- A **shared community garden**
- An **intergenerational project with a social mix**.

**November 1st 2018** beginning of the project

**December 2020** end of construction works

**November 1st 2021** end of the project

**April 2019** beginning of construction works

**March - April 2021** inhabitants move in

- **Brussels Housing** (Brussels-Capital Region) is the Main Urban Authority and co-coordinator of project CALICO.
- The **Community Land Trust of Bruxelles**, active in the production of antispéculative and affordable housing for low-income households since 2012, manages one of the housing clusters and the real estate operation.
- **Pass-ages** manages the facility for birth and end-of-life integrated in one of the housing clusters.
- **Angela.D** manages one of the three housing clusters and works towards a common appropriation of the gender perspective with all project partners.
- **Eva bxl** works in the field of mutual care in Brussels and organizes the integration of mutual care practices within CALICO.
- **VUB** is the university in charge of the project’s evaluation and replicability assessment, as well as studying its impact on the neighbourhood.
- Center for expertise and initiator of Brussels’ territorial development strategy, **perspective.brussels** brings its expertise to CALICO through its Referent for Housing.
- **The Commune of Forest** works with CALICO to help its integration within the neighbourhood.
- **The social welfare center (CPAS) of Forest** will manage the transitional housing units.
- Social housing agency **Logement Pour Tous** will manage CALICO’s social rental housing units.
